|------------------|-------|
| Quantity (Sets)  | 1 - 1 |
| Lead Time (Days) | 12    |

### DESCRIPTION

This semi-automatic mobile brick making machine runs on a diesel engine, making it suited to sites without reliable grid power. It produces concrete bricks and blocks directly on-site, reducing transport costs and allowing production to happen in stages as a project progresses. The machine is manually operated beyond the diesel-powered compaction cycle, keeping maintenance straightforward in remote or resource-limited environments. Minimum order is one unit, with a lead time of 12 days from order confirmation. Builders24 sells, distributes, provides customs clearance services and delivers to South Africa, Zambia, Angola, Zimbabwe, Mozambique, Botswana, DRC, Eswatini, Lesotho, Madagascar, Malawi, Mauritius, Namibia, Tanzania, Uganda, Nigeria, and Kenya.

### KEY FEATURES

- This semi-automatic mobile brick making machine runs on a diesel engine, making it suited to sites without reliable grid power.
- It produces concrete bricks and blocks directly on-site, reducing transport costs and allowing production to happen in stages as a project
