

M7MI compressed earth interlocking brick press, hand or diesel powered

SKU: B24-BRI-0008

Category: Brick Making Machinery

UNIT PRICE**\$5,850.00****SPECIFICATIONS**

Quantity (Sets)	1 - 1
Lead Time (Days)	10

DESCRIPTION

The M7MI is a mobile compressed earth brick machine that presses raw soil, clay, or a soil-cement mix into interlocking blocks without firing or curing in a kiln. It runs either by manual hand operation or a diesel engine, making it usable on remote sites without grid power. The interlocking brick profile eliminates the need for mortar courses, reducing both material costs and skilled labour requirements on low-rise construction. Minimum order is a single unit, with a lead time of approximately 10 days from order confirmation. Builders24 sells, distributes, provides customs clearance services and delivers to South Africa, Zambia, Angola, Zimbabwe, Mozambique, Botswana, DRC, Eswatini, Lesotho, Madagascar, Malawi, Mauritius,

KEY FEATURES

- The M7MI is a mobile compressed earth brick machine that presses raw soil, clay, or a soil-cement mix into interlocking blocks without firing or curing in a kiln.
