| Power Source | Gasoline                           |

### DESCRIPTION

This ride-on power trowel runs on a Briggs & Stratton petrol engine rated at 35HP or 40HP, with hydraulic drive and electric start. Twin counter-rotating rotor heads cover a combined working diameter of 232cm, spinning at 125–175 RPM — suited to warehouse floors, industrial slabs, and large pours where walk-behind machines would be too slow. The 450mm x 200mm blades are 65Mn steel, the fuel tank holds 20 litres, and the machine weighs 520kg with overall dimensions of 2,450mm x 1,300mm x 1,500mm. MOQ is 1 unit; a machinery test report and video inspection are provided on request. Builders24 sells, distributes, provides customs clearance services and delivers to South Africa, Zambia, Angola, Zimbabwe, Mozambique, Botswana, DRC, Eswatini, Lesotho, Madagascar, Malawi, Mauritius, Namibia, Tanzania, Uganda, Nigeria, and

### KEY FEATURES

- This ride-on power trowel runs on a Briggs & Stratton petrol engine rated at 35HP or 40HP, with hydraulic drive and electric start.
