

12-ton single drum diesel vibratory road roller

SKU: B24-ROA-0009

Category: Road Roller

UNIT PRICE

\$11,440.00

SPECIFICATIONS

Quantity (Sets)	1 - 5
Lead Time (Days)	15

DESCRIPTION

This 12-ton single drum roller uses diesel power and vibratory compaction to consolidate soil, sub-base, and asphalt layers on road and civil construction projects. The single drum configuration suits trench backfill, embankment work, and general roadbed preparation where concentrated compaction force is needed. Units are CE and ISO certified, with a lead time of 15 days and a minimum order quantity of one machine — making it accessible for contractors needing a single unit as much as fleet buyers ordering up to five. Builders24 sells, distributes, provides customs clearance services and delivers to South Africa, Zambia, Angola, Zimbabwe, Mozambique, Botswana, DRC, Eswatini, Lesotho, Madagascar, Malawi, Mauritius, Namibia, Tanzania, Uganda, Nigeria, and Kenya.

KEY FEATURES

- This 12-ton single drum roller uses diesel power and vibratory compaction to consolidate soil, sub-base, and asphalt layers on road and civil construction projects.
