

550 kg double drum walk-behind vibratory roller

SKU: B24-ROA-0017

Category: Road Roller

UNIT PRICE

\$1,105.00

SPECIFICATIONS

Quantity (Sets)	1 - 5
Lead Time (Days)	7

DESCRIPTION

This walk-behind roller runs twin vibratory drums to compact asphalt, gravel, and granular sub-base on confined or small-scale paving jobs where a ride-on machine won't fit. At 550 kg operating weight, it delivers enough compaction force for footpaths, patching work, parking areas, and residential driveways without overloading lightweight surfaces. The unit carries CE certification and is available from a minimum order of one, with a standard lead time of seven days. Builders24 sells, distributes, provides customs clearance services and delivers to South Africa, Zambia, Angola, Zimbabwe, Mozambique, Botswana, DRC, Eswatini, Lesotho, Madagascar, Malawi, Mauritius, Namibia, Tanzania, Uganda, Nigeria, and Kenya.

KEY FEATURES

- This walk-behind roller runs twin vibratory drums to compact asphalt, gravel, and granular sub-base on confined or small-scale paving jobs where a ride-on machine won't fit.
