

1-ton double drum diesel vibratory road roller

SKU: B24-ROA-0018

Category: Road Roller

UNIT PRICE

\$1,300.00

SPECIFICATIONS

Quantity (Sets)	1 - 10
Lead Time (Days)	20

DESCRIPTION

This 1-ton walk-behind roller runs a diesel engine driving vibration across two steel drums, covering compaction of asphalt, gravel, and sub-base on footpaths, driveways, and patching works where larger machines can't manoeuvre. The double drum setup compacts on both the front and rear pass, reducing the number of passes needed on tight sites. Minimum order is a single unit, with a lead time of approximately 20 days from order confirmation. Builders24 sells, distributes, provides customs clearance services and delivers to South Africa, Zambia, Angola, Zimbabwe, Mozambique, Botswana, DRC, Eswatini, Lesotho, Madagascar, Malawi, Mauritius, Namibia, Tanzania, Uganda, Nigeria, and Kenya.

KEY FEATURES

- This 1-ton walk-behind roller runs a diesel engine driving vibration across two steel drums, covering compaction of asphalt, gravel, and sub-base on footpaths, driveways, and patching works where larger machines can't manoeuvre.
