

Hydraulic rock splitter, 70-ton excavator-mounted

SKU: B24-ROC-0003

Category: Rock Splitter

UNIT PRICE

\$1,040.00

SPECIFICATIONS

Quantity (Sets)	1 - 10
Lead Time (Days)	15

DESCRIPTION

This 70-ton hydraulic rock splitter attaches to an excavator and uses hydraulic pressure to fracture rock and stone without blasting, making it suited to quarrying, road building, and demolition work where explosives aren't practical. The unit runs off the excavator's existing hydraulic circuit, so no separate power source is needed on site. Orders start from a single unit, with a lead time of 15 days from order confirmation. Builders24 sells, distributes, provides customs clearance services and delivers to South Africa, Zambia, Angola, Zimbabwe, Mozambique, Botswana, DRC, Eswatini, Lesotho, Madagascar, Malawi, Mauritius, Namibia, Tanzania, Uganda, Nigeria, and Kenya.

KEY FEATURES

- This 70-ton hydraulic rock splitter attaches to an excavator and uses hydraulic pressure to fracture rock and stone without blasting, making it suited to quarrying, road building, and demolition work where explosives aren't practical.
