Selling Units	Single item

DESCRIPTION

This hydraulic spider crane operates on a rubber track drive system with a walking speed of up to 2.5 km/h and a 20% grading capability, making it workable on uneven or restricted sites where conventional cranes can't reach. It handles loads between 10 and 12 tonnes to a maximum lift height of 20 m, and ships with a man basket as standard. The unit weighs 3,000 kg, packages at 300 × 150 × 120 cm, and is powered by a Changchai electric-start engine. CE and EPA certified, with a machinery test report provided; minimum order is one unit and a one-year warranty applies. Builders24 sells, distributes, provides customs clearance services and delivers to South Africa, Zambia, Angola, Zimbabwe, Mozambique, Botswana, DRC, Eswatini, Lesotho, Madagascar, Malawi, Mauritius, Namibia, Tanzania, Uganda, Nigeria, and Kenya.

KEY FEATURES

- This hydraulic spider crane operates on a rubber track drive system with a walking speed of up to 2.5 km/h and a 20% grading capability, making it workable on uneven or restricted sites where conventional cranes can't reach.
